OUR 120TH BUILD

# The Wah Per Per Family

The Wah Per Per family's story is one of resilience, hope, and the transformative power of community support.

Originally from Myanmar, they faced immense challenges due to limited access to resources and opportunities in their home country. Their journey took a remarkable turn when they made the decision to relocate to the United States in search of a better life.

Once settled in Amarillo, The Wah Per Per family joined Habitat for Humanity's homeownership program. Overcoming challenges like language barriers, they thrived through financial literacy courses and volunteering at the home their Habitat neighbors.

The Wah Per Per family's home is our current build, and the 120th Habitat home in Amarillo!

## Collegiate Challenge 2024

HABITAT'S COLLEGIATE CHALLENGE PROGRAM PROVIDES YEAR-ROUND ALTERNATIVE SCHOOL BREAK VOLUNTEER OPPORTUNITIES TO COLLEGE STUDENTS ACROSS THE UNITED STATES.

This year, we were fortunate to host Collegiate Challenge teams from Carroll University in Wisconsin and Gustavus Adolphus College in Minnesota. During their spring breaks, they dedicated their time to volunteering at our build site in Amarillo. The students from Carroll University contributed 273 man-hours, while the Gustavus Adolphus College group put in 180 man-hours towards our home build. We are immensely grateful for the hard work of both teams. Their volunteer efforts for the Wah Per Per family home surpassed our expectations, and we are truly thankful.
